

Product description

Description	Beta-Alanine is a non-essential acid naturally produced by the synthesis of other proteins in the human body.
Appearance	Colorless crystalline needles
Odor	Odorless
Taste	Slightly sweet taste

Physical chemical analysis

Assay	98 - 100%
Melting Point	200 - 205°C. at 760 mm Hg
Boiling Point	237 - 238°C. at 760 mm Hg
pH	7
Vapor Pressure	0.0156 mm/Hg at 25°C
Flash Point	> 230°F TCC
ogP (o/w)	-0.86
