

## Product description

## Physical chemical analysis

**Description** Copper chloride is an inorganic chemical compound of the chloride group, a salt of hydrochloric acid and copper in the 1st order.

**Complexiometric EDTA** 36.7 - 37.8 %

**X-Ray Diffraction** Conforms to Structure

**Appearance** Blue to Blue-Green color

**Trace Metal Analysis** ≤ 15.0 ppm

## Other specs

## Our certificates

**Shelf life** 12 months

**Transport** Loose in bulk
