

Specifications

C₄H₉NO₃ Content (dry basis) ≥ **98.5 %**
Specific Rotation [α]_{D20}: **-26.00~ -29.00**
PH **5.0-6.0**
Loss on Drying ≤ **1.0%**
Residue on Ignition ≤ **0.5%**
Arsenic (as As) ≤ **1.0mg/kg**
Heavy Metals (as pb) **10mg/kg**
Shelf life: **2 years**
INSPECTION STANDARD: **GB7300.101-2019.**

Efficiency

The function of the product is to adjust the balance of amino acid in feed, promote growth, improve meat quality and the nutritive value of feed raw material whose amino acid digestion rate is low, produce the feed with low protein content; and is good for economizing the protein resources, cutting down the material costs.

Directions

THE PRODUCT SHOULD BE ADDED TO ANIMAL FEED AT NORMAL TEMPERATURES. REFERENCE VOLUME: 0.1% -0.3% .
