

Product description

Description	This sunflower protein is produced from selected, peeled sunflower seeds using a proprietary gentle processing technology. It is supplied as a customizable powder, with particle size tailored to ensure optimal functionality in the target application.
Ingredients	100% peeled sunflower seeds, without additives
Intended use	For direct consumption or further processing
Appearance	Light grey, beige powder
Odour and flavour	Typical for sunflower, clean smell
Density	0.324 – 0.417 kg/l
Purity	min. 99.99% Impurities <0.01% (plant based)
Granulometry	Typical d(90) <110 µm
Residual Ethanol	max 0.99%

Others specs

Allergens	Absent
GMO	The product does not contain and has not been produced from GMO
Other certifications	Vegan Label, Kosher, Halal
Foreign matters	The product is largely free from foreign matters as far as technically feasible. Products containing seeds or grains may contains seeds or grain husks or fragments thereof.
Ionizing radiation	The product and raw materials used have not been subjected to ionizing radiation.
Storage	Dry, cool area, away from direct sunlight, protect from moisture. Recommended: max. 25°C, max. 60% relative humidity.

Physical chemical analysis

Protein (Nx6.25)	min 50 %
Dry matter	min 92 %
Fat	max 4.5 %
Moisture and volatile content	<11 % by weight

Microbiological analysis

Aerobic mesophilic bacterial count	<25 000 cfu/g
Yeasts	<100 cfu/g
Moulds	<100 cfu/g
Coliform bacteria	<10 cfu/g
E. coli	<10 cfu/g
S. Aureus	<100 cfu/g
Salmonella	Absent cfu/25g
